

The mission of Rockdale Magnet School for Science and Technology, a specialized research-focused learning community, is to ensure that students become individuals who think ethically, critically, and independently while excelling in competitive academic environments and emphasizing high standards and expectations distinguished by:

- **Rigorous, accelerated curriculum**
- **Four years of student-driven scientific research**
- **Personalized academic support and advisement**
- **Partnership with the College of Engineering at Georgia Institute of Technology**
- **Extracurricular academic, leadership, and service opportunities**
- **Dedicated family and community involvement**
